Act 1 Weather Report

(These scenes are the introduction to the show's serial killer. These scenes take place after the murder. The detectives are already on location trying to make some sense out of a crime scene with no leads or evidence. Act 1 - GX-LA NEWS reporting local weather and breaking news for southern California. Weather girl speaks in front of green screen delivering the weather).

WEATHER GIRL

Welcome to GX-LA News I'm "Stacy Nicole" and today's weather is a hot one. Early morning haze as the clouds roll in and clear up around 11 a.m., in and around the beach areas.

(Shot green screen, weather created with interaction).

WEATHER GIRL (CONT'D)

Great conditions for those wanting to go to the beach and catch some rays. Families make sure to protect your skin from those deadly sunrays, because it will be a record high temperature. Monday at a scorching 98 degrees in the Valley, 102 in downtown and in Orange County, we're seeing it around 96 degrees.

(On the screen is the weekly report numbers for the weather).

WEATHER GIRL (CONT'D)

This weeks weather seems to be pretty clear and hot for the rest of the week. Although we will see a temperature drop Friday, Saturday and Sunday. I'm "Stacy Nicole" and this is your local weather. Stay tuned for a breaking news report by "Timothy Greenwood".

STATION ANCHOR

Thank you "Stacy". 7 months after the last mysterious murder involving a model/actress in the Los Angeles county area, a new victim has been found in Alhambra, California. Lets go live to our very own GX-LA news reporter "Laura" at the location where L.A.P.D. is working hard to find some answers.

(Cuts to double screen with station anchor and field reporter).

STATION ANCHOR (CONT'D)

"Laura" what seems to be the situation down there?

(Cut to Field Reporter, with one hand covering her ear and the other holding the mic).

FIELD REPORTER

We are here at the corner of Main Street and Woodward, where a young lady was found as her roommate came home after work and discovered her body in the Kitchen and Immediately called 911. We did speak with some of the neighbors who refused to go on camera, however they state that late last night the victim was seen with a male friend walking into the driveway. However it is yet determined who that friend is. The L.A.P.D. hasn't released a statement just yet, but we've been given word that someone is going to speak to us shortly.

(Split screen both anchor and field reporter).

STATION ANCHOR

Very scary to think this is the fourth victim in last 8 months, all victims being models/actresses. Has the L.A.P.D. reported that these cases may be linked?

FIELD REPORTER

That seems to be the case, however we will not know until we speak with the officers in a few minutes.

STATION ANCHOR

Thanks "Laura," for those of you that just tuned in. A young woman has been found dead, which seems to be yet another homicide and all involving models/actresses in the past 8 months. We'll have more for you on the latest news and sports right after this.
